

Every morning we will have some free play with equipment, music, craft materials with the staff taking time to speak to everyone in smaller groups, this is followed by parachute games or other team, confidence & also self-esteem building games, activities & fun for all. Mornings are about everyone getting to know each other and settling in ready for a fun filled day.

As well as daily structured craft activities, all day art & craft materials are available to create with imagination being the only limitation, our team is full of ideas if you would like extra inspiration .

We have scheduled sports and active games every day, all day which are fun for all ages and abilities.*

Every day is so jam packed with activities of all varieties, we know it's also important to have a little down time, so at the end of the day, every day we build dens and snugs as a team, allowing those who choose to, to play board games, puzzles and sit down with a good book for those who choose to bring one along. Card games are always popular during this time too. Those who still have some energy left will also have the option of participating in more games, crafts and sports.

The listed activities on these programmes are just a tiny snippet of full days' activities. There are certificates awarded daily for sportsmanship, attitude, leadership & also a special helpful helper certificate.

We will be spending time out on our beautiful large green for picnics, games, crafts and fun as much as we are able to so please wear old clothes, apply sun lotion generously, wear a sun hat and bring a named re-fillable drink bottle & named spray sun lotion bottle with your backpack containing your lunch & snacks.
